

AMERICAN TAX RESCUE

TAX PREPARATION

TAX PREPARATION

The first thing to remember when preparing your taxes is; the taxpayer is one hundred percent responsible for their personal tax return. This means that no matter who prepared your taxes, you are still responsible for the outcome with the IRS.

There are NEW guidelines for people that prepare taxes. Your preparer must have an official IRS "PTIN" and "EFIN" number. Only these people can legally prepare your taxes and even represent you during an audit. Only Enrolled Agents, CPA's and Tax Attorneys can represent you if you appeal an IRS audit.

Because of these facts, UPC Business Solutions not only prepares your taxes, but also educates you about the numbers on each line of your personal 1040 or business tax return. We not only fill out your returns, we also fill out every additional tax form and worksheet required if the IRS reviews your return. We also have an in-depth interview and preparation checklist that will help you achieve maximum success with your return. We make sure that you have all the proper documentation to back up your return numbers.

UPC Business Solutions also uses ATX, the number one tax preparation software in the country. This software gives us instant access to the most up to date tax research and IRS guidelines. Remember, it is our job to make sure you get every deduction possible for your particular return.

We specialize in the following Categories:

- Independent Contractors that receive 1099's
- Tipped Employees
- Foreclosure Tax Returns
- Small Business Owners
- Sole Proprietors
- S-Corporations.

AMERICAN TAX RESCUE

TAX PLANNING

Most people are only concerned with their tax returns at the end of the year. To take advantage of the many tax breaks that the IRS allows requires long term tax planning. UPC Business Group will teach you how to significantly reduce your taxes with proven strategies and at the same time, lower your chances of being audited and make your tax return IRS bulletproof.

Individual Tax Planning will include:

- Filing Status
- Vehicle Expense
- Investing
- Dependents
- Catastrophes
- Travel
- Child Tax Credit
- Business Entertainment
- Income Credit
- Dependent Credit
- Rentals
- Education Cost
- Adoption Credit
- Interest
- Home Deductions
- Foster Care
- Job Retirement Savings
- Child Support
- Medical Expenses
- Charity Giving
- Alimony
- Misc. Expenses

Business Tax Planning will include:

- Business Structure
- Travel
- Amortization
- Accounting Method
- Entertainment
